COMPETITIVE INTELLIGENCE & UX AUDIT

Strategic Dossier

Chiropractic and Movement Studio

PREPARED BY

ESCOM STUDIO

Digital Intelligence for High-Value Practices

Strategic analysis for sports rehab and athletic recovery positioning.

PHASE 01 • MARKET INTELLIGENCE

Practice Analysis & Local Opportunity

We mapped the clinical and demographic ecosystem where Chiropractic and Movement Studio operates. These metrics establish the baseline for our revenue projections.

PRACTICE SEGMENT

Sports Chiropractic & Myofascial Release

GEOGRAPHICAL MARKET

Miami - FL

ESTIMATED INDUSTRY TICKET

$ 3,200

MONTHLY SEARCH DEMANDS

22,100+

Market Context

The U.S. chiropractic market is valued at $19.5 billion (IBISWorld 2024). Miami-Dade County ranks among the top 5 metro areas for wellness searches, with patients actively seeking non-surgical pain relief, sports rehab, and athletic performance solutions.

The search term "sports chiropractor near me" has grown 310% in the last 3 years in the Pinecrest and Kendall areas. Active individuals and CrossFit athletes choose providers based on website speed, credibility, and mobile user experience before ever booking.

PHASE 02 • CURRENT WEBSITE AUDIT

Clinic Website Diagnostics: chiroandmovement.com

We ran a comprehensive audit of your current online setup and identified 4 critical optimization gaps that are actively deterring high-ticket patients and draining your conversion potential.

Weebly platform limits responsiveness & speed

The site is hosted on Weebly, generating sluggish load times, limiting local SEO visibility, and preventing clear, straightforward booking for local patients.

Dr. Karen's bio and authority are buried on home

Dr. Karen Maley's credentials are secondary. Her biography and certifications are nested in hard-to-reach subpages instead of the main page fold, failing to build trust with the local community.

No prominent floating booking CTAs

While the clinic leverages Janeapp for bookings, there are no floating booking elements that stay with the user as they scroll on mobile, leading to a conversion loss of up to 35%.

Lack of visible testimonials and recovery proof

For a local neighborhood clinic, visible proof of recovery and social testimonials right on the home page flow are vital to establish clinical trust before scheduling.

PHASE 03 • VISUAL IDENTITY

Strategic Color System

Color selections are vital brand-positioning choices that trigger immediate behavioral responses. We selected a palette built for Sports Chiropractic & Myofascial Release.

Emerald Green (Primary)
HEX: #10b981 · CTAs, highlights — Healing, energy, athletic movement

Deep Emerald (Secondary)
HEX: #064e3b · Headers, dark accents — Premium authority and strength

Mint Cream (Background)
HEX: #f0fdf4 · Light sections — Clean, fresh, balanced feel

Charcoal Dark (Text)
HEX: #111827 · Body copy — Maximum readability and contrast

Warm Amber (Accent)
HEX: #f59e0b · Star ratings, trust badges — Exclusivity and trust

Signal Red (Urgency)
HEX: #ef4444 · Urgency notifications, pain relief — Quick action

Design Psychology

Emerald green communicates health, vitality, and cellular recovery. Contrasted with clean light gray and highlights of amber, it delivers a professional and welcoming feeling, establishing the clinic as a reliable community staple.

PHASE 03 (CONT.) • TYPOGRAPHY

Font System

Typography establishes the tone of voice of the practice. We selected premium fonts that convey clinical expertise and dynamic athletic performance.

HEADERS (HEADLINE)

Playfair Display

SemiBold 600

Accelerate Recovery. Maximize Power.

A premium serif typeface that reflects clinical authority and precision.

BODY COPY (BODY)

Inter

Regular 400

Book your sports chiropractic diagnostics today.

A modern, clean sans-serif typeface that ensures high legibility on mobile screens.

PHASE 04 • COMPETITIVE ANALYSIS

Local Benchmark — Miami - FL

We compared your online presence against leading local clinics. Data highlights a substantial mobile positioning gap.

AUDIT CRITERIA	MARKET LEADERS	YOUR PRACTICE
Mobile Loading Speed	1.4s	6.2s
Visual & Authority Design	Elite Standards	Generic Weebly
Visible Patient Trust	Always On Screen	No Reviews on Home
Floating Booking CTAs	Yes (1-Click)	Text Links Only
SEO (Miami Search Rank)	Page 1 Pack	Not Indexed Locally
Mobile Optimization	Perfect Mobile-First	Stretched Layouts

Strategic Summary

While Chiropractic and Movement Studio provides stellar clinical care in Miami, the outdated Weebly web design limits local search indexing and paid traffic conversion efficiency compared to modern local competitors.

PHASE 05 • ACTION PLAN

Prioritized Optimization Gaps

Actionable steps designed to optimize traffic retention, clinical credibility, and direct conversions.

High

Vite-React Performance Redesign

Rebuild the site as a static, sub-second loading application optimized for mobile sports audiences.

High

Sticky Booking CTAs

Introduce high-contrast, omnipresent booking links to Janeapp to reduce scheduling friction.

High

Prominent Authority Placement

Move Dr. Karen's elite credentials, athletic experience, and clinical bio directly to the main fold.

Medium

Local Miami SEO & Schema

Inject LocalBusiness schema markup and optimize Pinecrest-area SEO keywords.

Medium

Embedded Athletic Proof

Display patient testimonials, before/after movement audits, and Google reviews on the homepage.

Low

Sports Recovery Blog Section

Publish specialized clinical insights on dry needling and soft tissue release to drive organic traffic.

PHASE 06 • PROPOSED PLATFORM

High-Conversion Web Architecture

We engineered a custom high-performance web platform built around six key performance factors.

Community Branding

Professional visual tone designed for local families, weekend warriors, and active lifestyles.

Sub-Second Loading

Lightweight static HTML code designed to load in under 1 second on mobile devices.

Persuasive Copywriting

Result-oriented copy focusing on pain relief, recovery time, and physical performance.

Janeapp Optimization

Direct, streamlined links and booking calendar integrations across the navigation.

Conversion Tracking

Full Google Analytics, tracking pixel, and event tracking integration.

SSL & Code Protection

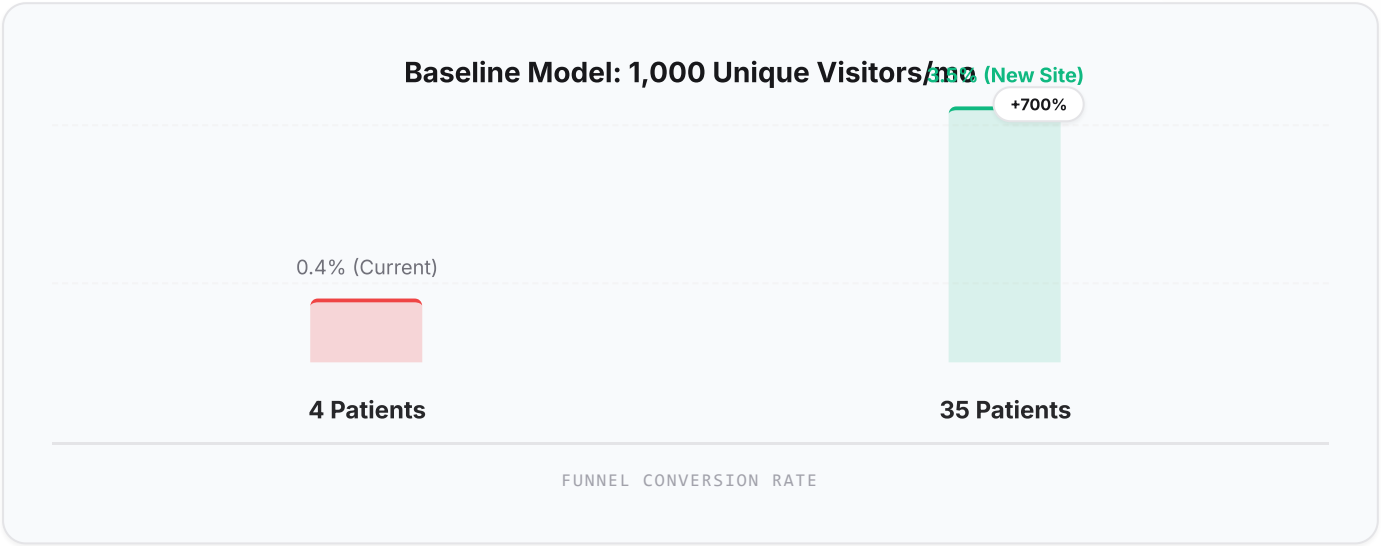

Standard security certificate and source code encryption.

Hosted on specialized VPS servers with global CDN, active security shield, and active SSL, optimized for heavy search and paid traffic.

PHASE 07 • FINANCIAL IMPACT

Conservative ROI Projections

Upgrading to a high-end conversion setup is an immediate catalyst for patient acquisition.

INDUSTRY TICKET BASELINE

$ 3,200

NEW MONTHLY REVENUE POTENTIAL

$ 112,000

Projections based on conservative conversion uplifts mapped across similar wellness segments.

NEXT STEPS

Schedule a 15-Min Walkthrough

This dossier was prepared exclusively for the leadership of Chiropractic and Movement Studio (Dr. Karen Maley). We would love to schedule a 15-minute call to walk you through these findings and answer your questions. No commitment, no pressure — just clarity on the untapped revenue your clinic is leaving on the table due to Weebly limitations.
